# RIVER TRIP OPTIONS

We have carefully scouted and mapped all our trips. We have established sites for all our access points and campsites. We have permission to use these spots and never break trespass laws by putting our customers in across private property or railroad tracks or directing them to camp wherever they wish. Most of the property along our rivers is private, so careful planning is important. We've already done it for you. We monitor river conditions and rainfall amounts daily (and have since 1978). We know when it's unsafe to boat. We're fully licensed and insured for all the services we provide. We subscribe to the American Canoe Association's National Livery Safety System.

***ALL TRIPS INCLUDE: USE OF BOAT, PADDLE, LIFE JACKET, RIVER MAP, SAFETY ORIENTATION, and SHUTTLE TO AND FROM THE RIVER BANK.***
